SEDIMENTARY GEOLOGY

Contents Volume 95, 1995

ExpresSed

Pinning points: a method providing quantitative constraints on relative sea-level history
R.H. Goldstein and E.K. Franseen 1

Crystal chemistry, and thermodynamic and kinetic properties of calcite, dolomite, apatite, and biogenic silica: applications to petrologic problems
J.S. Tribble, R.S. Arvidson, M. Lane III and F.T. Mackenzie 11

Heavy mineral response to the progradation of an alluvial fan: implications concerning unroofing of source area, chemical weathering and palaeo-relief (Upper Cretaceous Parkstein fan complex, SE Germany)
H.G. Dill 39

Tectonic control in the boundaries of the genetic units: an example in the Dogger of the External Zones of the Betic Cordillera (province of Murcia and Almeria, Spain)
J. Rey 57

Characteristics and origin of coarse gold in Late Pleistocene sediments of the Cariboo placer mining district, British Columbia, Canada
N. Eyles 69

Cementation in Oligo–Miocene non-tropical shelf limestones, Otway Basin, Australia
S. Nicolaides 97

Unusual twinning features in large primary gypsum crystals formed in salt lake conditions, Middle Miocene, Madrid Basin, Spain—palaeoenvironmental implications
J.P. Rodríguez-Aranda, J.M. Rouchy, J.P. Calvo, S. Ordóñez and M.A. García del Cura 123

Discussions

The depositional and diagenetic evolution of the coastal ridges of northwestern Egypt—discussion
G.M. Friedman 133

The depositional and diagenetic evolution of the coastal ridges of northwestern Egypt—reply
A.M.A. Wali, M.E. Brookfield and B.C. Schreiber 137

Stranded parasequences and the forced regressive wedge systems tract: deposition during base-level fall—discussion
V. Kolla, H.W. Posamentier and H. Eichenseer 139

Stranded parasequences and the forced regressive wedge systems tract: deposition during base-level fall—reply
D. Hunt and M.E. Tucker 147

Shell directions as a tool in palaeocurrent analysis
J. Wendt 161

Volcanic ash layers facilitate high-resolution sequence stratigraphy at convergent plate margins: an example from the Plio–Pleistocene forearc basin fill in the Boso Peninsula, Japan
M. Ito 187

Downslope changes in the shape of pediment debris, Saudi Arabia
P. Vincent and A. Sadah 207
Senni Beds of the Devonian Old Red Sandstone, Dyfed, Wales: anatomy of a semi-arid floodplain
G. Owen 221
Inversion of the Broad Fourteens Basin (offshore Netherlands), a small-scale model investigation
T. Nalpas, S. Le Douaran, J.-P. Brun, P. Unternehr and J.-P. Richert 237
Silt fraction heavy-mineral distributions in a lateritic environment: the rivers and insular shelf of north-central Puerto Rico
L.J. Poppe, J.A. Commeau and G. Luepke 251
An accretionary distally steepened ramp at an intrashelf basin margin: an alternative explanation for the Upper Triassic Steinplatte "reef" (Northern Calcareous Alps, Austria)
R.J. Stanton Jr. and E. Flügel 269

Book Reviews
Introduction to Sedimentology, by S.M. Sengupta—K.W. Glennie 287
The Palaeobiology of Trace Fossils, by Stephen K. Donovan (Editor)—A.A. Ekdale 288
Tectonic Controls and Signatures in Sedimentary Successions, by L.E. Frostick and R.J. Steel (Editors)—C. Vita-Finzi 289
Fluvial Sedimentary Geology and Geochronology of the Holocene Rhine–Meuse Delta, The Netherlands, by T.E. Tornquist—M. Leeder 290

Erratum 293
